# LEARN

We are excited to share details about the **LEARN** project, an impactful initiative dedicated to empowering refugees and migrants with limited or no formal educational background. The project is driven by a deep commitment to address the unique challenges faced by this underserved group, ensuring their seamless integration into education and society.

### Motivation:

Refugees and migrants often encounter numerous barriers, including language, cultural differences, and disrupted education. The LEARN project acknowledges these challenges and seeks to provide a holistic solution.

### Objectives:

**Develop** a structured training course tailored to the specific needs of individuals with limited or no formal education.  
**Create** a digital toolkit using innovative Social Emotional Learning methodologies.  
**Design** a guidance tool to assist newcomers in choosing the right educational and professional pathways.

### Innovation:

LEARN goes beyond conventional approaches by incorporating Social Emotional Learning, acknowledging the social and emotional intelligence of refugees and migrants. This innovative methodology aims to enhance their adaptability and overall well-being.

### Transnational Impact:

Collaboration is at the heart of LEARN, with partners from various EU countries pooling their expertise to create a comprehensive solution. The project's outcomes will not only benefit local communities but also contribute to a broader understanding of refugee education on a global scale.

### Concrete Outcomes:

The project will deliver a Structured Training Course, a Digital Toolkit, and a Dissemination and Exploitation Strategy. These outcomes are designed to address the identified needs of the target group and facilitate their successful integration.

**LEARN** is not just an educational endeavor; it is a step towards breaking down societal barriers and fostering a sense of hope and belonging among refugees and migrants. We invite you to join us on this journey as we work towards a more inclusive and empowered future.
